SightScale.ai — Capabilities Statement

The GenAI Control Layer

Core Competencies
• Provenance-first data manufacturing (controlled capture, structured labeling, audit trail)
• LoRA/LoHa fine-tuning with standardized trigger tokens
• Photorealism QA & regression (lighting, material, prompt fidelity)
• Documentation, versioning, and deployment playbooks

Differentiators
• Deterministic, repeatable outputs under SLA
• Full chain-of-custody and lineage for data and LoRA modules
• Production-grade QA benchmarks and prompt fidelity scoring
• Enterprise/Government compliance posture

Representative Outcomes
• Directional lighting control: ≥90% prompt-to-output consistency (inanimate objects, controlled tests)
• Provenance-assured datasets enabling audit-ready model outputs

Company Data
UEI: WVPHEEJVMV36   CAGE: 14R92
NAICS: 541511, 541512, 541715
Website: https://www.sightscale.ai   Email: kevin@sightscale.ai
Location: Daly City, CA

Point of Contact
Kevin Shey — Founder & CEO
Email: kevin@sightscale.ai
